BONUS 3 · 55 HVAC VISUAL CARDS

How to open your Pocket Tools

PT chart · Superheat & subcooling · Quick formulas · Job notes

Your Pocket Tools live at this link. They open in your web browser — no app store, no sign-up.

hvac-pocket-tools.pages.dev

On iPhone

1. Open the link in Safari.
2. Tap the Share button, then “Add to Home Screen” (you may need to scroll down).
3. Open Pocket Tools from the new icon on your Home Screen.

On Android

1. Open the link in Chrome.
2. Tap the three-dot menu, then “Add to Home screen” (on some phones, “Install app”).
3. Open Pocket Tools from the new icon on your Home screen.

On a computer

1. Open the link in Chrome or Edge and bookmark it.

Pocket Tools need an internet connection to open. With no signal in a basement or attic, they may not load.

Your job notes are stored on this device, in your browser. Always open Pocket Tools from the same icon or browser. Clearing your browser data deletes your notes.

Field reference only. Always confirm with the manufacturer's data and the unit's rating plate.
